

servFaces Anti Fog

Anti fog is a newly developed highly effective anti-fogging and cleaning product, which is based on a hybrid polymer system. The molecular structure is such that the individual molecules chemically bond directly with the surface being treated.

Through this transparent and highly effective anti-fogging protective film a strong and crystal clear anti-fog sealing is achieved.

Application Areas:

The product is suitable for household glass and mirror surfaces. Wet areas such as wellness & sauna areas, swimming pools, mirror and glass surfaces, showers and baths as well as glass surfaces in automotive vehicles.

Characteristics:

- The product prevents fogging of glass surfaces subject to large temperature fluctuations.
- Removes stubborn dirt without leaving any residue and leaves behind a clean and streak free surface.
- Free from Silicone
- Water based
- Surface Protection 3 – 6 weeks

Usage: 5ml - 10ml / m²

Application Temperature: +10°C to +35°C

Weatherproof: after 4 - 6 hours

Curing Time: 24 hours

Storage and Shelf Life: at least 12 months at room temperature sealed in its original container.

Storage Temperature: +10°C to +25°C

Always protect the product from direct sunlight and frost.
