

## servFaces Cockpit & Plastic Care (Interior)

Cockpit and Plastic Care provides a uniformly deep black finish on various plastic surfaces in the interior. Cockpit and Plastic Care is a maintenance and protective emulsion. The product replenishes the moisture of the plastic surface and effectively protects the surface from discoloration and cracking. Cockpit and Plastic Care produces a silky looking, well-groomed finish and is particularly suitable for so called "Soft Touch" surfaces in modern vehicle interiors. The product also provides dust repellent and antistatic characteristics. This helps to protect the plastic from further contamination since the surface does not become sticky / adhesive.

### **Advantages:**

- UV protection
- Antistatic coating
- Supple feel
- Improved depth of surface colour
- Quick and easy to use
- Minimal amount of product required for excellent results
- Free from solvents
- Free from Silicone

### **Service Life:**

Cockpit & Plastic Care provides surface protection for a period of 6 – 12 weeks. After application and with regular cleaning intervals the surface protection can last for up to 6 months.

### **Application:**

Lightly spray the cleaned surface with the product and work in using a sponge, then allow the surface to dry.

**Do not use the product in direct sunlight.**

**Usage:** 3 - 5 ml / m<sup>2</sup>

**Application Temperature:** +5°C to +30°C

**Storage and Shelf Life:** at least 12 months at room temperature sealed in its original container.

**Storage Temperature:** +10°C to +25°C

**Always protect the product from direct sunlight and frost.**
