

servFaces Insect Remover (Ready-to-Use)

Insect Remover is a specially developed cleaning agent for the gentle removal of insect residues on glass, paint, chrome and plastic surfaces (solvent-free). This cleaning formula quickly opens up and softens the dense and solid insect residues, so that a gentle removal is possible without damaging the surface.

Insect Remover has been checked for paint and plastic compatibility.

The product is ideal as a pre-cleaner for the car wash and removes oil, grease and soot.

Application Areas:

- Cleaning of all types of vehicles
- Acrylic / polycarbonate
- Ideal for the cleaning of servFaces coated surfaces

Application:

The surface to be cleaned shall be dry and cool then from a distance of approximately 20cm spray the product onto the surface, leave to soak for 2 – 5 minutes. Then with water or cleaning solution (servFaces Wash Concentrate) and a soft sponge or a damp micro-fibre cloth the residue can be easily and gently wiped off the surface. Then rinse thoroughly with plenty of clean water or wash the vehicle as usual.

Do not apply the product or leave to dry in direct sunlight.

Usage: 10 - 15 ml / m²

Application Temperature: +5°C to +35°C

Storage and Shelf Life: at least 12 months at room temperature sealed in its original container.

Storage Temperature: +10°C to +25°C

Always protect the product from direct sunlight and frost.
