

## **servFaces Reactive Cleaner (High-Concentrate)**

servFaces Reactive Cleaner (high-concentrate) is an efficient and very powerful heavy duty cleaner for various applications. Reactive cleaner is a highly concentrated product that is ideal as a pre-cleaner for the gentle cleaning of vehicles. The new alkaline formula allows the product to easily remove many types of surface contamination. The product is also suitable for use on surfaces that have been protected by one of the many servFaces coating systems.

### **Application Areas:**

- Automobiles
- Lorries and Trucks
- Caravans
- Buses and Transport vans
- Boats
- Trains & Trams
- Industrial machinery
- Industrial & Trade
- Engine compartments

### **Characteristics:**

- Does not leave behind smearing / streaks (follow cleaning process)
- Removes stubborn dirt
- Can be used hot or cold
- Removes oil, fat and soot
- Highly concentrated
- Strong cleaning performance
- Low foaming

### **Application:**

Spray the surface with servFaces Reactive Cleaner Cleaner and leave it to soak into the dirt for 2 – 3 minutes. Then using a sponge or brush loosen the dirt, and afterwards thoroughly rinse with water to neutralise the product.

**Do not apply the product or leave to dry in direct sunlight.**

**Dilution:**

The product can be diluted in the ratio of 1:3 to 1:40 depending on the level of contamination.

**Application Temperature:** +10°C to +30°C

**Storage and Shelf Life:** at least 12 months at room temperature sealed in its original container.

**Storage Temperature:** +10°C to +25°C

**Always protect the product from direct sunlight and frost.**
