

servFaces Rims Cleaner

servFaces Rims Cleaner effortlessly removes brake dust and rust. Our unique formula containing special additives provides corrosion protection for sensitive surfaces such as plastic, aluminium and painted surfaces.

Application Areas:

- Painted surfaces
- Aluminium and steel rims
- Plastic wheel trims

Characteristics:

- Gentle on materials & paintwork
- Quick and easy to use
- Strong cleaning performance
- Corrosion protection
- Versatile - wide range of applications

Application:

Spray the surface with Rims Cleaner and let it soak for 3 – 4 minutes. Then use a sponge or brush to loosen the dirt and rinse thoroughly with clean water to neutralise the product.

Note: Before applying the product to delicate surfaces, test the compatibility of the product with the surface in a location that is not visible. Apply only on acid resistant surfaces. Not suitable for high-gloss polished rims and chrome surfaces.

Do not apply the product or leave to dry in direct sunlight.

Dilution:

Either use the product concentrated or dilute in the ratio of 1:3 with water depending on the level of contamination.

Application Temperature: +5°C to +30°C

Storage and Shelf Life: at least 12 months at room temperature sealed in its original container.

Storage Temperature: +10°C to +25°C

Always protect the product from direct sunlight and frost.
