

servFaces Special Cleaner – Acidic

(High-Concentrate)

servFaces Special Cleaner Acidic is an efficient, versatile and very powerful high-performance cleaner. Special Cleaner Acidic is highly concentrated and has a very strong cleaning performance and corrosion protective properties. The product effortlessly removes calcareous and rusty deposits on acid resistant surfaces.

Application Areas:

- Aluminium and steel rims and plastic wheel trims
- Aluminium parts
- Removes heavy soiling on machinery
- Cleans ceramics and tiles
- Removes grease and oil deposits
- Removes surface rust

The special corrosion protection properties of the product make it suitable for Aluminium.

Characteristics:

- Extremely high cleaning performance
- Very high solubility
- Gentle on materials
- Removes the most stubborn dirt such as lime, rust and brake dust
- Easily rinsed from surface
- Corrosion protection

Application:

Spray the surface with servFaces Special Cleaner Acidic and leave it to soak into the dirt for 2 – 3 minutes. Then using a sponge or brush, loosen the dirt and afterwards thoroughly rinse with water to neutralise the product.

Do not apply the product or leave to dry in direct sunlight.

Note: Always check the surface to be cleaned for compatibility with the product prior to use. Not suitable for use on chrome, steel and non-painted plastic parts. Do not inhale the spray mist during use. Always read the safety instructions before using the product.

Dilution:

Depending on the level of contamination either use the product neat or dilute to a ratio of 1:40.

Application Temperature: +10°C to +30°C

Storage and Shelf Life: at least 12 months at room temperature sealed in its original container.

Storage Temperature: +10°C to +25°C

Always protect the product from direct sunlight and frost.
